RAGAB ADEL RAGAB ALI

Junior .NET Developer | ASP.NET Core | C# | Web API | SQL Server

Cairo, Egypt • +20 114 912 0925 • RagabAdel862@hotmail.com • github.com/ragabadel • linkedin.com/in/ragab-adel-al-saidi

PROFESSIONAL SUMMARY

Junior .NET Developer with hands-on experience in ASP.NET Core MVC, Web API, C#, SQL Server, and Entity Framework Core. Combines practical software-project engineering with extensive enterprise IT support experience, disciplined troubleshooting methodologies, and clean architectural design principles. Focused on building robust, maintainable backend systems, RESTful APIs, and business applications within a professional software engineering team.

TECHNICAL SKILLS

Backend:	C#, .NET, ASP.NET Core MVC, ASP.NET Web API, Entity Framework Core, REST APIs
Database:	SQL Server, T-SQL, Relational Schema Design, Database Normalization
Frontend:	HTML5, CSS3, JavaScript, jQuery, Responsive Design
Tools:	Git, GitHub, Postman, Visual Studio, VS Code
Additional:	Python, Networking Protocols, Systems Architecture, CCTV / IP Systems

SOFTWARE PROJECTS

Clinic Management System | ASP.NET Core MVC, C#, SQL Server, EF Core *github.com/ragabadel/ClinicManagementSystem-Portfolio*

- Architected and developed a full-featured healthcare management web application managing patients, doctors, departments, visits, appointments, medical records, invoices, and payments.
- Engineered robust CRUD workflows, multi-layer validation, business logic services, and Entity Framework Core relational data mappings with SQL Server.

Product Management REST API | ASP.NET Core Web API, C#, Postman, REST *RESTful Architecture*

- Designed and implemented RESTful endpoints for comprehensive product catalog management (create, retrieve, update, soft-delete).
- Verified API request/response behavior, status codes, and input filtering using Postman; adhered strictly to clean HTTP resource standards.

PROFESSIONAL EXPERIENCE

Cairo Traffic Products (CTP) — *IT Helpdesk Specialist* *Oct 2024 – Present | Cairo, Egypt*

- Provide Tier-1 and Tier-2 technical support across corporate enterprise IT infrastructure, networks, and end-user hardware/software systems.
- Diagnose and resolve system bottlenecks, connectivity issues, and access controls; document incidents and operational playbooks.

Aman Investment — *IT Helpdesk Specialist* *Jul 2023 – Jul 2024 | Cairo, Egypt*

- Supported POS retail infrastructure, internal transaction workflows, and Microsoft Dynamics 365 enterprise environment.
- Installed, configured, and audited hardware and software; maintained CCTV and IP-based security network operations.

RadioShack — *IT Helpdesk Technician* *Apr 2023 – Jul 2023 | Cairo, Egypt*

- Delivered on-site and remote technical diagnostics, operating system deployments, and hardware maintenance.
- Assisted with technical documentation, inventory validation, and workstation standardization.

EDUCATION & CERTIFICATIONS

Bachelor of Information Systems — Abbasid Institute *Overall Grade: Good*

ASP.NET Full Stack Developer — CLS Learning Solutions *Professional Certification*

Developing ASP.NET Web Applications — Microsoft *Official Credential*

Programming in HTML5, JavaScript & CSS3 — Microsoft *Official Credential*
